LRDOM-1130-2-13
Change 2

Office Memorandum
No. 1130-2-13

20 October 1988

Project Operations
WINTER PARK CLOSING PLAN

1. This change supersedes Appendix A of LRDOM 1130-2-13 dated 2 October 1985.

2. Remove Appendix A dated 22 October 1987 and insert Appendix A dated 17 October 1988.

3. File this change in front of your record copies of the LRDOM for reference purposes.

FOR THE DISTRICT ENGINEER:

DOUGLAS C. EATON
LTC, Corps of Engineers
Deputy District Engineer

LRDOM 1130-2-13

Office Memorandum
No. 1130-2-13

2 October 1985

Project Operations
WINTER PARK CLOSING PLAN

1. Purpose. This memorandum provides guidance and procedures for closing or reducing the level of services available at recreation areas during periods of low use.

2. Applicability. This memorandum applies to all projects in the Little Rock District.

3. Reference: Part 327.12, Title 36, CFR

4. Definitions.

a. Winter Closure Period. Parks will be closed or services reduced beginning 1 November of each year. These parks will reopen or the services will be restored on 1 April of the following year.

b. The Winter Park Closing Plan. The plan will classify each of the Corps operated and maintained recreation areas under one of the following categories:

(1) Open All Year. Major portions of these parks may be closed, but a limited number of basic facilities will be available to visitors throughout the winter months. Electricity will not be provided unless an appropriate approved user fee is being collected for use of the campsite.

(2) Access Only - No Visitor Services. With the exceptions of the main access road, launching ramp, and parking area, other park facilities will be closed and camping will not be permitted in the park during the period specified in the approved plan. Cleanup, maintenance, and surveillance services will be eliminated or drastically curtailed during the closure period. The visiting public will be notified of the location of the closest park offering basic facilities by the posting of appropriate signs.

(3) Park Closed - No Access. These parks are closed to all access at the park boundary, and none of the facilities are open for the use of the public during the period specified in the approved plan. A sign will be placed at the park entrance to direct visitors to other parks that are open.

This LRDOM supersedes Policy No. 77-4 dated 27 Jan 1977

5. Policy. Consideration should be given to closing portions of the more popular parks and completely closing lesser used parks during this low-use period as a means of reducing operation and maintenance costs. The closing of parks or portions of parks to vehicular access should also be a deterrent to facility damage by vandals during the period of reduced surveillance. Parks where commercial boat docks are located should not be completely closed as these concessionaires continue to serve the needs of fishermen and boaters during the winter months.

6. Winter Park Closing Plan. A copy of the approved Winter Park Closing Plan for the District is attached as Appendix A. Requests including supporting justification to deviate from the plan will be submitted through the Chief, Construction-Operations Division, to the District Engineer for approval at least 90 days in advance of the proposed change.

FOR THE DISTRICT ENGINEER:
