CAUTION
An attempt has been made to show boating hazards (submerged or exposed point); however other hazards may exist and boaters are cautioned to watch for unknown hazards resulting from variation in pool levels.
When winds of 25 M.P.H. or more are forecast or blowing, boats are cautioned to stay out of open water. FOR YOUR OWN SAFETY'S SAKE HEED THE WARNING!
When boating outside of marked channel, watch for underwater objects.
Areas outside the navigation channel, immediately above and below dams, are hazardous for small boats and should be avoided.
