LRDOM 1105-2-2

21 April 1986

Office Memorandum
No. 1105-2-2

LIBRARY COPY
Planning
DISSEMINATION OF FLOOD ELEVATIONS

1. Purpose. This memorandum provides the policies for the dissemination of flood elevations.
2. Applicability. This memorandum applies to all personnel in the Little Rock District.
3. References:
Executive Order 11988 dated 24 May 1977
4. Policy
 - a. General. Flood elevations will be furnished to the Public and Federal, State, and local governments only by Flood Plain Management Services Branch of Planning Division.
 - b. Basic. Flood elevations are continually requested by individuals and Federal, State, and local governments. The LRD Engineering and Planning Divisions have produced large numbers of flood studies which contain flood elevations. These studies of streams are continually updated as result of the changing need of the watershed. As a result, outdated flood elevations for a stream are available throughout the District. When an individual is given more than one flood elevation for the same location, considerable adversity is created.

FOR THE DISTRICT ENGINEER:

JEROME B. SIDIO
Major, Corps of Engineers
Deputy District Engineer

DISTRIBUTION A

This LRDOM supersedes Policy No. 82-4, 16 August 1982
