## FOR YOUR SAFETY, READ THESE WARNINGS

When winds of 25mph or more are forecast or blowing, boaters should stay out of open water.

While some boating hazards (submerged or exposed points) are shown, others may exist. Boaters should watch for unknown hazards resulting from variation in pool levels.

Only trained scuba divers with proper equipment should dive in this lake. Deep, cold, water and submerged timber, snags, and other obstructions may be hazardous to divers. Know your limitations and those of your equipment. Never dive alone.

For your safety, diving or jumping from bridges, bluffs or any other structure into the lake is prohibited. Rope swings are also prohibited.
