Re: Greers Ferry Lake Proposed Shoreline Management Plan -
Environmental Impact Statement

Dear Ms. Anslow:

I am opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U.S. Army Corps of Engineers in November 2001 that would (a) increase the number of private multislip boat docks permitted on the Lake; (b) rezone areas of the Lake to allow for permitting of private multislip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the Lake.

I am opposed to all Alternatives contained in the draft Environmental Impact Statement of November 2001.

Sincerely,

Ron + Mary Simkin

Re: Greers Ferry Lake Proposed Shoreline Management Plan -
Environmental Impact Statement

Dear Ms. Anslow:

I am opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U.S. Army Corps of Engineers in November, 2001 that would (a) increase the number of private multi-slip boat docks permitted on the Lake; (b) rezone areas of the Lake to allow for permitting of private multi-slip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the Lake.

I favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

I am originally from Little Rock, Arkansas and spent many years on the lakes around the state. Greers Ferry is one of the last great lakes that is not cluttered by over building and too many boats on the lake.

My husband, children and I make a point of visiting Greers Ferry every year when we return to visit my parents. It sickens me to think this lake may soon be in the shape of Lake Hamilton and others if this is not stopped.

The lake is beautiful because of the strict building codes that have been enforced. Please do not allow the plans to continue to ruin yet another beautiful lake.

Sincerely,

Becky Staggs

Re: Greers Ferry Lake Proposed Shoreline Management Plan –
Environmental Impact Statement

Dear Ms. Anslow:

I am opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U. S. Army Corps of Engineers in November 2001 that would (a) increase the number of private multislip boat docks permitted on the lake; (b) rezone areas of the lake to allow for permitting of private multislip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the lake.

Having been around Greers Ferry Lake for a number of years, I've seen the positive results of the existing/long standing regulations regarding use of the lake and its shore. While change is inevitable, the new proposal seems out of balance and will not achieve its intended results without significant harm to the environment.

I am opposed to all Alternatives contained in the draft Environmental Impact State of November 2001.

Sincerely,

Jim Womble

Re: Greers Ferry Lake Proposed Shoreline Management Plan – Environmental Impact Statement

The current shoreline configuration of Greers Ferry Lake is unique. It is an excellent example of how a lake's shoreline can be attractive, functional, and recreational.

I am opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U.S. Army Corps of Engineers in November 2001 that would (a) increase the number of private multislip boat docks permitted on the lake; (b) rezone areas of the lake to allow for permitting of private multislip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the lake.

I am opposed to all alternatives contained in the draft Environmental Impact Statement on November 2001.

Sincerely,

Robert E. Langston

Re: Greers Ferry Lake Proposed Shoreline Management Plan -
Environmental Impact Statement

Dear Ms. Anslow:

I am opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U.S. Army Corps of Engineers in November, 2001 that would (a) increase the number of private multi-slip boat docks permitted on the Lake; (b) rezone areas of the Lake to allow for permitting of private multi-slip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the Lake.

Greers Ferry is a beautiful lake and a treasure to all who enjoy its natural resources. More boats, more docks, and more development will ruin this place, now and for future generations.

I favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Cordially yours,

Yvonne LaRocca

Re: Greers Ferry Lake Proposed Shoreline Management Plan -
Environmental Impact Statement

Dear Ms. Anslow:

We have spent most summer weekends on Greers Ferry Lake for more than 15 years and have kept our boats at Heber Springs Marina for several of those years. The pristine nature of the lake and shoreline convinced us to purchase property in the Tannenbaum community this past summer. We are looking forward to building a home and retire there within the next two years.

We are opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U.S. Army Corps of Engineers in November, 2001 that would (a) increase the number of private multi-slip boat docks permitted on the Lake; (b) rezone areas of the Lake to allow for permitting of private multi-slip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the Lake.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

This issue holds special significance to me. My grandparents were re-located by the government (as many were) in order to create this lake. Our family "ground" lies beneath the lake. Though the lake is recreational it is somewhat of a shrine to many like myself. Please take this into account. Thanks

Subject: Greers Ferry Lake Docks

Hi:

Thank you for allowing us to speak on this issue.

I am a property owner on Greers Ferry Lake and hope you will reconsider granting all the new docks. Once done, it would be difficult to retreat from the position of granting these and more...I know it must be difficult to restrain the "growth" we have erroneously come to believe is necessary for a healthy economy. My concerns are more for healthy water, air, habitat and lets face it, even our hardwood forests are under great threat.

The public deserves to retain a chance to see just one lake that is not developed to death. These docks will not help "the public" but only grant exclusive amenities to a few. Those same few would like to feel that the shoreline belongs to them!

This relaxation of dock permits does not serve the public. If you wanted to serve the public, why not reopen the park at southfork and add some public slips there?

Then there is the issue of this lake being the best tasting water in the state! I will put it up against Hot Springs water any day. This is a PRECIOUS RESOURCE.

Please pass on these additional boat docks. Heavy "development" of this lake is only for a few, and not in the public interest. Please do not allow the greed and thoughtless development by a few ruin a precious and irreplaceable gem in our "Natural State".

Thank you for your consideration,

The draft EIS presented by the Corps of Engineers on December 4, 2001

in Heber Springs and the proposed Alternative 2 for the Greers Ferry Shoreline management plan are excellent examples of your District's commitment to balanced management. This is a practical and sensible approach for the future of the lake area and insures its continued existence for the pleasure and recreation of all who wish to come and enjoy its beauty.

My family and I strongly endorse Alternative 2 and thank you and your office for the time, effort and care taken in preparing the EIS and alternatives.

**Public comments for
Greers Ferry Lake Shoreline Management Plan
Draft EIS**

You are invited to write your comments and suggestions concerning analysis that is included in the Draft EIS. Feel free to attach additional sheets of paper as necessary. Please include your name and city of residence. You may place this sheet in the "Comment Sheet Return" box at the conclusion of this meeting or mail it to Patricia Anslow, Planning, Environmental & Regulatory Division, Little Rock District Corps of Engineers, P.O. Box 867, Little Rock, AR 72203-0867 or e-mail comments to gf.smp.eis@usace.army.mil.

All written comments are due by January 18, 2002.

Please write legibly.

The draft EIS presented by the Corps of Engineers on December 4, 2001

in Heber Springs and the proposed Alternative 2 for the Greers Ferry Shore-

line management plan are excellent examples of your District's commitment

to balanced management. This is a practical and sensible approach for the

future of the lake area and insures its continued existence for the pleasure

and recreation of all who wish to come and enjoy its beauty.

My family and I strongly endorse Alternative 2 and thank you and

your office for the time, effort and care taken in preparing the EIS and

alternatives.

Dear Ms. Anslow

Please accept these comments on the EIS and shoreline management plan for Green Ferry Lake. Although the write-up is the same - each of these individuals has expressed to me, their agreement and concurrence with Alternative 2. If you would like any additional information on these comments, please give me a call.

Thank-you for your help.

Sincerely
James B. Bolhuis

**Public comments for
Greers Ferry Lake Shoreline Management Plan
Draft EIS**

You are invited to write your comments and suggestions concerning analysis that is included in the Draft EIS. Feel free to attach additional sheets of paper as necessary. Please include your name and city of residence. You may place this sheet in the "Comment Sheet Return" box at the conclusion of this meeting or mail it to Patricia Anslow, Planning, Environmental & Regulatory Division, Little Rock District Corps of Engineers, P.O. Box 867, Little Rock, AR 72203-0867 or e-mail comments to gf.smp.eis@usace.army.mil.
All written comments are due by January 18, 2002.

Please write legibly.

Please record my support of Alternative Plan #2. I support the Corps of Engineers and do not want to see the management of this lake given to a special interest group. The new EIS was thorough and complete. I feel Alternative Plan #2 is fair and would, in the long run better protect Greers Ferry Lake than the plan currently in place.

Please move to implement Alternative Plan #2.

You may place this sheet in the "Comment Sheet Return" box at the conclusion of this meeting or mail it to Patricia Anslow, Planning, Environmental & Regulatory Division, Little Rock District Corps of Engineers, P.O. Box 867, Little Rock, AR 72203-0867 or e-mail comments to gf.smp.eis@usace.army.mil.
All written comments are due by January 18, 2002.

Please write legibly.

Please record my support of Alternative Plan #2. I support the Corps of

Engineers and do not want to see the management of this lake given to a special

interest group. The new EIS was thorough and complete. I feel Alternative Plan

#2 is fair and would, in the long run better protect Greers Ferry Lake than the plan

currently in place.

Please move to implement Alternative Plan #2.

Please record my support of Alternative Plan #2. I support the Corps of Engineers and do not want to see the management of this lake given to a special interest group. The new EIS was thorough and complete. I feel Alternative Plan #2 is fair and would, in the long run better protect Greers Ferry Lake than the plan currently in place.

Please move to implement Alternative Plan #2.
