ROAD MILEAGES TO NORFORK DAM

FROM	MILES
Chicago, Illinois	577
Dallas, Texas	545
Kansas City, Missouri	311
Tulsa, Oklahoma	268
Shreveport, Louisiana	411
Little Rock, Arkansas	173
Memphis, Tennessee	190
St. Louis, Missouri	256

Please Note

Only trained scuba divers with proper equipment should dive in the lake. Deep, cold water may be hazardous to scuba divers. Know your diving limitations and those of your equipment. Always dive in pairs. Dive at your own risk.

Attempts have been made to show boating hazards (submerged or exposed points). However other hazards may exist. Boaters should watch for unknown hazards resulting from variation in pool levels.

When winds of 25 M.P.H. or more are forecast or blowing, boaters are cautioned to stay out of open water. For your own safety, heed the warning!

Norfork Lake is open to seaplane operations, with pilots assuming all risks. Landings and takeoff maneuvers are prohibited within 2,600 feet of any dam, causeway, or bridge crossing and within 500 feet of any recreation area or public launching area.
