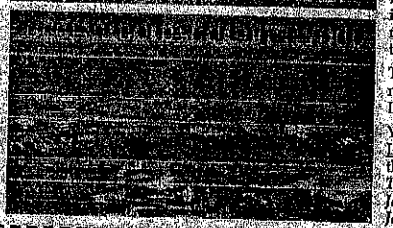
Greers Ferry Lake Is Under Attack

Which do you like?



The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

You can help save Greers Ferry Lake. Write a letter or complete the form below and mail.

The deadline for comments is January 28, 2002. Please mail by January 18, 2002.

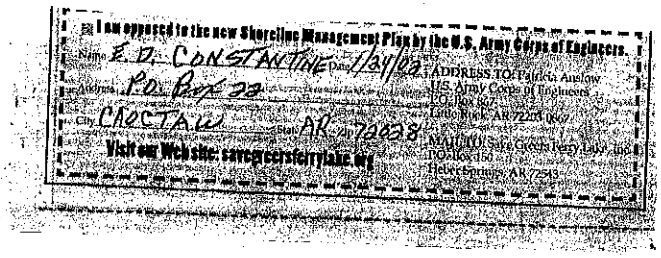
While I sometimes chaf
at the white line controlling
tree and brush clearance
on the lake (I live on the lake)
I know that if developers
had their way we would
have more houses, condos
and other money making
concerns. That is why
would be the opening for very
damaging circumstances for
the appearance of the lake.



I am opposed to the new Shoreline Management Plan by the U.S. Army Corps of Engineers.

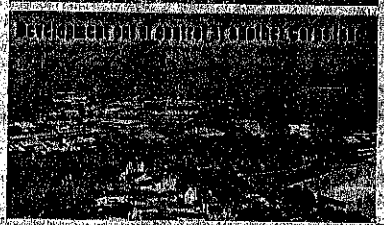
Greers Ferry Lake Is Under Attack

Which do you prefer?



The Corps of Engineers proposed a new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities. You can help save Greers Ferry Lake. Write a letter or complete the form below and mail.

The deadline for comments is January 28, 2002. Please mail by January 18, 2002.

Re: Greers Ferry Lake Proposed Shoreline Management Plan - Environmental Impact Statement

Dear Ms. Anslow:

I am opposed to the proposed Shoreline Management Plans for Greers Ferry Lake contained in the draft Environmental Impact Statement issued by the U.S. Army Corps of Engineers in November, 2001 that would (a) increase the number of private multi-slip boat docks permitted on the Lake; (b) rezone areas of the Lake to allow for permitting of private multi-slip boat docks in formerly Protected Areas; and (c) increase the area in which vegetation modification (mowing) could be conducted on the Government land adjacent to the Lake.

I favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Sincerely, Billie Jean Norris

I have spent many hours on the shore's of Greers Ferry Lake, it is so beautiful, why can't anything be left alone to be beautiful.

we have a beautiful river + Dam in our town and a park where you can go + sit + watch the dam, and a restaurant where you can eat + watch the dam + river and now they are talking of building a hydroElectric plant right in the way of watching + looking at it,

Not to make more power for our area + help us to have less expensive Bills, but to sell to other States, please leave the lake like it is.

I am opposed to the new Shoreline Management Plan by the U.S. Army Corps of Engineers.

Jan. 08, 02

Dear ?, Committee ith,

I saw the add/ad about the proposed changes at Greers Ferry Lake.

I hope this gets to the right agency because I am in favor of more docks, more areas for the General Public and the average citizen to enjoy, boat & fish in.

In my opinion most of the lake is for the rich and wealthy only. Most is cost prohibitive for the average person - especially the retired person on a fixed income.

We need more places to launch a boat so that you must have a boat to go to fish,

We need more floating fishing docks to fish from,

We need more cabins to be rentended by the average citizen, Not cost prohibitive,

We need known that can be leased for 6 month or a year at a time,

Etc Etc,

If you make changes please consider this about, Think about the average person,

Someone - or a Committee ready to drive to Reed Lake in Illinois if see the things they have done. It's great.

Thanks
Jim Naylor

Greers Ferry Lake Is Under Attack

Which do you like?

The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

You can help save Greers Ferry Lake. Write a letter or complete the form below and mail.

The deadline for comments is January 28, 2002. Please mail by January 18, 2002.

HAVING LIVED IN NORTHEAST MINNESOTA FOR THIRTY FIVE YEARS, I'VE SEEN THE REALITY OF SO MANY LAKES DESTORYED, ALONG WITH THE DESTRUCTION OF QUALITY FISHING. DON'T LET THIS HAPPEN HERE.

Greers Ferry Lake Is Under Attack

Which do you like?

The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

You can help save Greers Ferry Lake. Write a letter or complete the form below and mail.

The deadline for comments is January 28, 2002. Please mail by January 18, 2002.

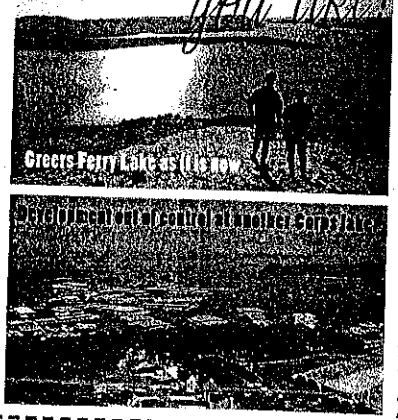
Greers Ferry Lake Is Under Attack

Which do you like?



The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

You can help save Greers Ferry Lake. Write a letter or complete the form below and mail.

The deadline for comments is January 28, 2002. Please mail by January 18, 2002.

...ow if we should

Greers Ferry Lake Is Under Attack

Which do you like?

The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

You can help save Greers Ferry Lake. Write a letter or complete the form below and mail.

The deadline for comments is January 28, 2002. Please mail by January 18, 2002.

Greers Ferry Lake Is Under Attack

The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

This shouldn't happen since Community Water & Clinton Water & Heber Springs Water use this Lake as a water supply. Looks like this would cost water company's more in chemicals to treat water and in turn create lower quality of drinking water.

Thanks

Greers Ferry Lake Is Under Attack

Which do you like?

The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

Please do not approve any more boat docks on Greers Ferry Lake. This only benefits a few homeowners and the real estate firms at the expense of the natural beauty of the lake. It is essentially no benefit to the many, many members of the public who camp, swim and boat on the lake. To the contrary, it degrades their enjoyment of the current natural beauty of the lake. Please do not cave in to the pressure and influence of the few at the expense of the many. Thank you very much for your consideration.

Dear Ms Anslow ;

I am a part time boating enthusiast on Greers Ferry Lake. When on the lake, I thoroughly enjoy the beautiful clean water, and always search the shore line for wildlife. I particularly enjoy the sight of Bald Eagles that make their nests in tall trees along the shoreline.

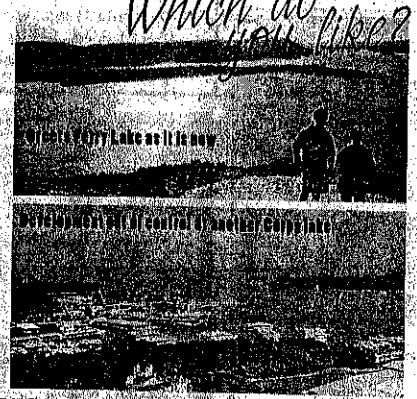
I am very concerned that with the additional boat docks, cleared timber, and mowing along the shoreline, the wild life and beautiful scenery will fade away.

PLEASE REJECT THE PROPOSED SHORE LINE MANAGEMENT PLAN.

Regards,

Murlin Bender

Greers Ferry Lake Is Under Attack



The Corps of Engineers' proposed new shoreline management plan for Greers Ferry Lake would rezone 93 areas for new docks in protected (no docks) areas. In effect, it would open up some 210 miles of protected shoreline by potentially allowing thousands of new docks to be built in the future. The plan would also increase the area for private mowing on public land by more than 300 percent.

The plan endangers many of the natural resources of Greers Ferry Lake and its pristine qualities.

P.O. Box 150
Heber Springs, AR 72543

This lake will loose its beauty & its call to vacationers who are enthralled by the beauty of Greers Ferry Lake as it now is! This lake was meant to be a "working" lake, i.e. provide good drinking water, hydro power, flood control. Playing on it is a "by-line" we enjoy.

BOTH
I am opposed to the new Shoreline Management Plan by the U.S. Army Corps of Engineers.

WE HAVE LAKEVIEW PROPERTY ON GREERS FERRY LAKE AND THOUGH WE WOULD LIKE NOTHING MORE THAN TO PURCHASE PROPERTY ACROSS THE STREET FOR A BOAT DOCK, IT'S NOT WORTH SACRIFICING THE NATURAL BEAUTY OF THE LAKE. WE JUST MOVED HERE FROM MICHIGAN (THE LAND OF LAKES) WHERE ALMOST EVERY INCH OF LAKE FRONTAGE IS CONSUMED WITH HOUSES & BOAT DOCKS. THERE'S NO SUCH THING AS JUST SITTING ON YOUR PORCH & WATCHING THE SAILBOATS GO BY. I HOPE YOUR SUCCESSFUL IN YOUR EFFORTS TO SAVE THE BEAUTY OF THE LAKE.

Im opposed to the new Shoreline Management Plan by the U.S. Army Corps of Engineers.

Sirs, I am in favor of more boat docks for the Greer Ferry Lake Shoreline. Reading the opposition are many who already have docks and now with a "dog in the manger" attitude would prevent others to have the same things they have. Virgil Lawyer

A NOTE FROM ...
Ms. Carole Lesniak

I left a state
30 years ago that
had destroyed all
of its lakes & rivers.
They learned the
hard way what
over exploitation
can due. It is very
disturbing to see
the Corps wanting
to do the same
thing in AR., by
giving in to a few
special interest
groups, who are out
in it for the money.

X I am opposed to the new Shoreline Management Plan by the U.S. Army Corps of Engineers.

Heber Springs, AR 72543

A note from
Gail Gilliland

Dear: U.S. Army Corps of Engineers
Please keep Greers
Ferry Lake as it is. It
is a price-less Jewel
for all the people of Arkansas
and surrounding
states. I've lived in Heber
Springs for 16 years.
I swim in the lake
almost every day in the
summer. The water
is so clean and it is
also our drinking water.
Please don't let a
few people endanger
our Lake and Water.

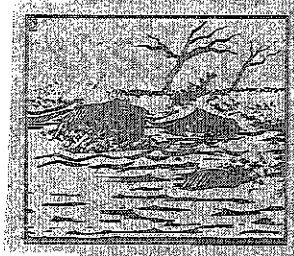
(over)

Listen To the voice of the people and To the majority of the citizens in the Heber Springs area - NOT To a Tiny group of disgruntled dissenters or To mis-informed editorials.

P. E. Rice

Enclosures Jan. 19, '02

Impact to be negligible



The editorial on the Greers Ferry Lake Shoreline Management Review makes extensive use of inflammatory language and does little to create a greater understanding of the various opinions of your readership.

We all agree that we want to preserve the beauty and environmental quality of Greers Ferry Lake.

The U.S. Army Corps of Engineers hired a private scientific contractor who has just finished an environmental impact study that concluded that the corps' proposed changes will have a negligible effect on the lake. No rational person would believe that the corps is proposing to turn the lake into a Walt Disney World or Coney Island.

Nor does anyone propose to open up the development of the lake, turning Greers Ferry into another crowded Lake Hamilton.

To make those comparisons is at the least inappropriate and more likely intentional exaggeration. All the other lakes in Arkansas that are managed by the corps are beautiful, natural and clean. (Lake Hamilton is not a Corps of Engineers lake.) The corps is proposing in this review to increase the dock zoning from 7 to 8 percent, and to stop all future zoning changes.

If this proposal is adopted, the corps will not have endowed Greers Ferry with "all the charm of busy, greasy truck stops." On the contrary, based on the best scientific evidence, the impact on the environment will be negligible, and all members of the public will have gotten some of what they wanted.

Let's give the corps a little more credit for doing a tough job well.

Apply the do-right rule

I read your editorial, "Stop the spin: Save the Greers Ferry," and was shocked that you would buy the story of the group that met with you without doing some research.

Greers Ferry Lake is a public lake under the control of the Corps of Engineers and run according to federal regulations and rules. The addition of private boat docks, at the request of landowners, can only be made after an environmental impact study has shown that the docks will not environmentally affect the lake to any appreciable degree. Of the 93 docks proposed, 75 are docks with two to four slips.

Anyone worrying about too many docks is protected by federal regulations. Many were deprived of a dock by selective placement that was ordered by the prior corps director, who attempts to lead through the group you met with.

Your understanding of the 50- to 100-foot mowing change is incorrect; the footage is measured from a structure (house) toward the lake and not from the shoreline. The right to mow does not include the right to trim trees or remove trees.

The shore landowners care enough for the lake that they invested in the adjacent property. The Arkansas citizens who work for the corps care for the lake and take pride in their work.

Taking a position without knowing all of the facts is irresponsible. The Save Our Lake group gave you incorrect and misleading information. To play the do-right rule, as your paper has in the past, why not get the facts and print them for your readers who count on you for the truth?

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION IN OPPOSITION

To: Ms Patricia Anslow
Planning,Env.&Regulatory Div
U.S. Army Corps of Engineers
P.O. Box 867
Little Rock, AR 72203-0867

The undersigned do hereby state that they are residents, visitors or users of the area surrounding Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of previously protected areas of the Lake shoreline (no private docks allowed) to Limited Development Areas (to allow private docks); by allowing a large increase in the number of "private" boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be done on Government easement land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineer's proposed Shoreline Management Plans that would allow these changes. This includes all of the "Alternatives" contained in the Corps' draft Environmental Impact Statement of November 2001.

I support preferred Alternative 2 for the Shoreline Management Plan.

The Corps of Engineers is an established, professional organization that has maintained a standard of excellence in serving our State. Why should their diligence, knowledge and years of expertise in their field be completely disregarded due to the extremist conservationists that feel it necessary to exercise their political correctness and halt the progress under the Corps' of Engineers unfaltering direction? Why not just abolish the Corps of Engineers — that is the message you will send if you do not trust the plan they have developed for Greers Ferry Lake.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION IN OPPOSITION

To: Ms Patricia Anslow
Planning,Env.&Regulatory Div
U.S. Army Corps of Engineers
P.O. Box 867
Little Rock, AR 72203-0867

The undersigned do hereby state that they are residents, visitors or users of the area surrounding Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of previously protected areas of the Lake shoreline (no private docks allowed) to Limited Development Areas (to allow private docks); by allowing a large increase in the number of "private" boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be done on Government easement land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineer's proposed Shoreline Management Plans that would allow these changes. This includes all of the "Alternatives" contained in the Corps' draft Environmental Impact Statement of November 2001.

NAME	ADDRESS
Katherine N. Jones	335 Bordeaux Rd, Higden AR 72067

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are not allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001. The undersigned favor continuation of the existing 1994 Shoreline Management Plan, with no future zoning or mowing changes.

PETITION TO PROTECT GREERS FERRY LAKE

To: Ms Patricia Anslow
Planning,Env.&Regulatory Div
U.S. Army Corps of Engineers
P.O. Box 867
Little Rock, AR 72203-0867

The undersigned do hereby state that they are residents, visitors or users of the area surrounding Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of previously protected areas of the Lake shoreline (no private docks allowed) to Limited Development Areas (to allow private docks); by allowing a large increase in the number of "private" boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be done on Government easement land adjacent to the Lake's shoreline.

The undersigned favor the continuation of the existing 1994 Shoreline Management Plan with no future zoning or mowing changes and oppose the Corps of Engineers SMP that would allow these changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are not allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow these changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001. The undersigned favor continuation of the existing 1996 Shoreline Management Plan, with no future zoning or mowing changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

:Please return to
Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs, AR 72543
by JANUARY 18, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION IN OPPOSITION

The undersigned state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs AR 72543

PETITION IN OPPOSITION

The undersigned state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks have not been allowed) to Limited Development Areas (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on the Government easement adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

by JANUARY 18, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks have not been allowed) to Limited Development Areas (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on the Government easement adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

PROPOSED SHORELINE MANAGEMENT PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

:Please return to
Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs, AR 72543
by JANUARY 18, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

:Please return to
Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs, AR 72543
by JANUARY 18, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are not allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001. The undersigned favor continuation of the existing 1994 Shoreline Management Plan, with no future zoning or mowing changes.

PROPOSED SHORELINE MANAGEMENT PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs, AR 72543
Deadline, January 28, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

PETITION IN OPPOSITION

The undersigned do hereby state that they are ~~residents of the area~~ around Greers Ferry Lake, that they are or have been visitors to and users of Greers ~~Ferry~~ Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION TO PROTECT GREERS FERRY LAKE

To: Ms Patricia Anslow
Planning,Env.&Regulatory Div
U.S. Army Corps of Engineers
P.O. Box 867
Little Rock, AR 72203-0867

The undersigned do hereby state that they are residents, visitors or users of the area surrounding Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of previously protected areas of the Lake shoreline (no private docks allowed) to Limited Development Areas (to allow private docks); by allowing a large increase in the number of "private" boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be done on Government easement land adjacent to the Lake's shoreline.

The undersigned favor the continuation of the existing 1994 Shoreline Management Plan with no future zoning or mowing changes and oppose the Corps of Engineers SMP that would allow these changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

:Please return to
Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs, AR 72543
by JANUARY 18, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PLEASE RETURN TO
Save Greers Ferry Lake, Inc.
P.O. Box 150
Heber Springs AR 72543
BY JANUARY 11, 2002

PETITION IN OPPOSITION

The undersigned state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

ENVIRONMENTAL IMPACT STATEMENT

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks have not been allowed) to Limited Development Areas (in which private boat docks are allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on the Government easement adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are not allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001. The undersigned favor continuation of the existing 1994 Shoreline Management Plan, with no future zoning or mowing changes.

GREERS FERRY LAKE
PROPOSED SHORELINE MANAGEMENT PLAN
ENVIRONMENTAL IMPACT STATEMENT

PETITION TO PROTECT GREERS FERRY LAKE

To: Ms Patricia Anslow
Planning,Env.&Regulatory Div
U.S. Army Corps of Engineers
P.O. Box 867
Little Rock, AR 72203-0867

The undersigned do hereby state that they are residents, visitors or users of the area surrounding Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of previously protected areas of the Lake shoreline (no private docks allowed) to Limited Development Areas (to allow private docks); by allowing a large increase in the number of "private" boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be done on Government easement land adjacent to the Lake's shoreline.

The undersigned favor the continuation of the existing 1994 Shoreline Management Plan with no future zoning or mowing changes and oppose the Corps of Engineers SMP that would allow these changes.

Greers Ferry Lake
Proposed Shoreline Management Plan
Environmental Impact Statement

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area surrounding Greers Ferry Lake, or that they are or have been visitors to and users of Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by allowing rezoning of heretofore Protected Areas of the Lake shoreline (in which private boat docks are not allowed); by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the number of private boat docks on the Lake; and by allowing a large increase in the area in which vegetation modification (mowing) may be conducted on Government land adjacent to the Lake's shoreline.

The undersigned oppose the Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to all Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001. The undersigned favor continuation of the existing 1994 Shoreline Management Plan, with no future zoning or mowing changes.

by JANUARY 18, 2002

PETITION IN OPPOSITION

The undersigned do hereby state that they are residents of the area around Greers Ferry Lake, that they are or have been visitors to and users of Greers Ferry Lake and/or are interested citizens concerned about Greers Ferry Lake. They are aware of the proposed plan of the U.S. Army Corps of Engineers to change the Shoreline Management Plan for Greers Ferry Lake by:

a) permitting a large increase in the number of private multislip boat docks on the Lake,
b) rezoning previously "Protected" areas of the shoreline (in which private boat docks are not allowed), to "Limited Development" which allows docks,
c) allowing a large increase in the area in which vegetation could be cut by private landowners on Government land next to the Lake.

The undersigned oppose the U.S. Army Corps of Engineers' proposed Shoreline Management Plans that would allow those changes. This specifically refers to Alternatives contained in the Corps' draft Environmental Impact Statement of November, 2001.

We favor the continuation of the 1994 Shoreline Management Plan with no future zoning or mowing changes.
