What are the most important factors that affect your opinion? <u>I like the ides of</u> the 50 Negetstive Management along the shore line.	4 
Be firm, too Many people trim to the water and get away with it. A double standard is not good.	
Other Comments Too many resorts trim to the water and Then their septic field just drains into the water.	
Please do not allow this to continue be firm !!

What are the most important factors that affect your opinion? I am Very concerned about Improving water quality & clavity. The 50 foot Vegetative Manggements classification is a very positive step toward filtering run off into the lake. I want the shoreline protected & do not want Table Brok Lake to look like Lake of the Ozarks. Other comments Tike the Alternative 3 - conservative that because Peckention but understand there are others that want to develop t expand businesses on the lake.
This is a very complex Master Plan W/ alternatives. I tappre- ciate the public session & ability to talk with the US Anny Corps of Engineers.

August 14, 2013

Army Corps of Engineers, Little Rock District P.O. Box 867 Little Rock, Arkansas 72203

Attention: Dana Coburn

Subject: Table Rock Master Plan Draft Revisions Revision of July 2013

Gentlemen:

In accordance with your request for Public Comment, we are offering the following with respect to the proposed revision to the Table Rock Master Plan dated July 2013.

We are a property owner located at 2

#### US Privacy Act 5 USC 552 (b)

A). With respect to Chapter 5 Resource Plan Vegetative Management Justification page 5-4 and Chapter 6 Special Topics/Issues/Considerations paragraph Vegetative Management Area page 6-9:

We agree with, "A riparian vegetative management area along the water's edge has long been a goal for Project Operations at Table Rock Lake." We would request your consideration of a more defined explanation of the proposed 50 linear foot vegetative management area. This definition should include the planning of non-native grasses; mowing and maintaining those areas that are currently permitted by the Mowing Permit process. We believe the mowing and maintaining of the shore line by adjacent land owners accomplishes the intent to "provide sufficient buffering to protect and improve water quality", while enhancing the lake's esthetics and safety.

Those areas that are currently undisturbed, "areas where native grasses and shrubs grow" (including native trees) do provide other beneficial vegetative management initiatives, however additional concerns develop for the safety of the public. These concerns include snakes and other harmful animals, poisonous weeds; dead trees and brush which can fall and harm individuals or fall into the lake rendering the shoreline useless and esthetically unpleasing.

A general blanket statement of a 50 linear foot buffer for the entire lake is not practical based upon existing practices.

Army Corps of Engineers, Little Rock District August 14, 2013 Page 2

The existing shoreline management process should be maintained with the Mowing Permit process kept in place.

B). Chapter 6 Special Topics/Issues/Considerations Public Safety page 6-2 "Recommend limiting boat dock slip size on community, marina and resort docks."

From the Boating Use Survey page 2-25, the above recommendation is not contained in or referenced in that study. Nor was the "size and speed of boats on the lake" referenced or contained. The "PDT" (Project Delivery Team) has arbitrarily suggested this recommendation. This recommendation should be removed as it will have no overall effect on the safety of the public. Boats of any size and speed pose the same potential effect when operated improperly. The Missouri State Highway Patrol Water Patrol Division is the appropriate entity to control on the water boater safety.

With the availability of many public launch ramps boats of any size, shape and speed can be launched and operated on the waters of Table Rock Lake. The above recommendation of limiting boat dock slip size on community, marina and resort docks is discriminatory to those owners and operators and cannot be substantiated by any facts.

While we agree with the vision statement, "Balanced public use of the lake while sustaining the natural, cultural and socio-economic resources of the area" additional rules and regulations may not have the desired effects on the eventual outcome.

Please use this form to provide your comments on the draft revised Table Rock Lake Master Plan and the draft Environmental Assessment (EA) and potential impacts of the alternatives. The Draft Master Plan and EA may be found on the web at <u>http://www.swl.usace.army.mil/Missions/Planning/TableRockMasterPlanUpdate.aspx</u>. Feel free to take an extra form and send it back later to USACE at the addresses below. **Comments must be submitted by August 30, 2013.**

What are the most important factors that affect your opinion? <u>I LIKE THE PROPOSED DECREASE</u> W "LOW DENSITY RECREATION" AND THE INCREASE IN THE LANDS CLASSIFIED AS ENVIRONMENTALL SENSITIVE AS SPECIFIED IN ALTERNATIVE 2, BUT I HAVE INVESTED IN A LAKE FRONT HOME TO ENJOY THE VIEW. I INDULD NOT WANT A 50 PT. "VEGETATIVE MANAGEMENT" AREA ON THE SHORE LINE IN FRONT OF OUR HOUSE. I FEEL THAT THE VEGETATION WOULD NOT ONLY AFFECT OUR VIEW, BUT WOULD Other Comments PROMOTE UNWANTED RODENTS, SNAKES AND PESTS. I FEEL THAT THE HEIGHT OF THE GRASS DOES NOT MAKE THE FILTERING EFFECTIVE, MIS THE DENSITY.

I HAVE BEEN ENJOYING TABLE ROCK LAKE SINCE THE MID 60'S. IT HAS BEEN AN IMPORTANT THAT OF MY FAMILY'S LIFE. DURING THAT TIME, I FEEL THAT THE CORPS. HAS DONE A GOOD JOB OF REGULATING THE USE AND PRESERVING THE NATURAL BEAUTY THAT WE HAVE ENJOYED THROUGH OUT THE VEARS. THE ONLY SUBSTANTIAL NEGATIVE CHANNE THAT I HAVE NOTICED THROUGH THOSE YEARS IS THE NUMBER OF BOATS AND THE SIZE OF THE BOATS, NEWHER WILL CHANKE WITH THE PROPOSED AUTERNATIVES. I PAID A SUBSTANTIAL PREMIUM TO HAVE A LAKEFRONT HOME TO ENJOY THE VIEW. I WOULD NOT WANT OF SOFT AREA OF STORELING THAT WOULD BE DEDICATED TO VEGETATIVE MANAGEMENT.

I WOULD SUPPORT ENTHER ALTERNATIVE 1 - "NO ACTION" OR ALTERNATIVE 2d -"NO VEGETATIVE MANAGEMENT AREA".
