What are the most important factors that affect your opinion? How would the 50ft area be determined? From the water, from full pool, etc? It seems this would be almost impossible to determine. 2a may be a better idea. I am in favor of SLOW GROWTH

What are the most important factors that affect your opinion?
business and residential prowth needs.
With no growth you will get deterioration of properties;
SENEYS etc.
Other Comments No growth of business means stagnation and eventually a deterioration as the desire to
invest in a property is removed. Homes would also
500 this to some extent. This would be an enviolonmental problem
Explosive growth with no control would be an
en vis-onmerilat problem
Protect some areas that are sensibile or designates
for reserve purposes. Encourage small docks to
combine. Allow existing gusiness or neighborhood
docks to expand where they curringly exist and
New ones in appropriate artas
Continue to remove septic on take front
property over time. Allow mowing permite but
no tree removal in appropriate areas. Do not
allow morning permits is some greas based on envisionenta
or errosion issuts such as steep inclines.

I choose "Strongly Disapprove" – about 1 or 2 on your scale for Alternative #2

My vote is for Alternative # 1 - "Leave things alone"

Factor affecting my opinion =

I want a clean lake but I do not believe what you propose will have much affect on lake quality. The biggest problem on any of these lakes is septic leakage and run off. This is rocky soil with little ability to absorb the affluent and provide for degradation of the outflow from a septic tank. The bigger problem is septic's that don't even work or work poorly or have leaks.

I did not see anything in your plan about addressing these septic issues.

When the CORP or MODNR get serious about cleaning up the septic problem, then we will see some progress, but until then any efforts such as you propose will only cost the taxpayers money and will do little to improve anything.

I appreciate your efforts but feel they are misdirected and will only result in a US Privacy Act & USC 652 (b)

Strongly Alternative 2 d only Strongly Approve Strip added

What are the most important factors that affect your opinion?

Comments must be submitted by August 30, 2013.

Corp reducing, or preferably deleting, current unreasonable and unnecessary vegetation restrictions with regards to adjacent lakefront homeowners. Allowing adjacent lakefront residences to maintain the strip property greatly enhances the lake and its aesthetic appeal; and diffuses the ongoing animosity by the public against the Corp. Failure to revise these unpopular and unreasonable restrictions will result in continued anti-Corp sentiment and conflict with local residents.

Other Comments

Corp should allow, and encourage, adjacent lakefront homeowners to clean up, remove debris and maintain their respective land strip to the water. Removing overgrown underbrush, small scrub trees, noxious weeds and the invasion of non-native nasty cedar trees should be allowed without interference from, or threat of overly punitive penalties, by the Corp. Contrary to the published 'Potential Environment Effects' matrix the aesthetic effect of described adjacent lakefront area would be very beneficial to the Lake. This one revision would singlehandedly change public attitude towards and perception of the Corp to whereby the Corp would now be looked upon as 'partner' in managing the resource rather than an oppressive unreasonable enemy of the public.

Further, the amount of adjacent lakefront homeowner property frontage affected covers but a small fraction of the 750 miles of shoreline on the Lake.

This would be a true "balanced approach" which meets the needs of the public; and enhances the stature of Corp with the local residences. We must not miss this opportunity to correct the situation.

What are the most important factors that affect your opinion? Why Change Something that is already won King using our tayes for something we don't want? You should make public how much this is costing tax payers, & now much it will continue to cost. Other Comments Resorts can bo what they want but homeowners are given no consideration.
