B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE

REVIEW AREA ONLY INCLUDES DRY LAND: Project Review Area is located entirely within uplands. Review area contains railroad tracks and associated gravel railbed areas that have been in place since before the early 2000's. Although there appear to be three culverts located in the Harbor Track Siding Storage Area, they are not within the review area. The area to the north/northeast of the Harbor Track Siding Storage Area is currently an authorized dredge disposal area.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
