PUBLIC NOTICE

Action No. SWL-1992-10683

Published: June 18, 2025

Expires: August 4, 2025

Little Rock District

Nationwide Permits Reissuance Request for Comments

On June 18, 2025, the U.S. Army Corps of Engineers (Corps) published in the Federal Register its proposal to reissue 56 existing nationwide permits (NWP) and issue one new NWP. One NWP is not proposed for reissuance.

NWPs are general permits issued on a nationwide basis to streamline the authorization of activities that result in no more than minimal individual and cumulative adverse environmental effects. Many of the proposed NWPs require notification to the district engineer before commencing those activities, to ensure that the activities authorized by those NWPs cause no more than minimal individual and cumulative adverse environmental effects.

National Issues Concerning the Proposed NWPs:

The Federal Register notice is the public's opportunity to comment on the proposed NWPs, general conditions, and definitions. Comments on national issues relating to these NWPs should be submitted to docket number COE-2025-0002 at www.regulations.gov, or by email to 2026nationwidepermits@usace.army.mil or by mail to U.S. Army Corps of Engineers, Attn: CECW-CO-R, 441 G Street NW, Washington, DC 20314-1000. Instructions for submitting comments are provided in the June 18, 2025 Federal Register notice. Comments on the proposed NWPs are due by July 18, 2025.

Regional Issues Concerning the Proposed NWPs, Including Regional Conditioning:

Division engineers are authorized to add regional conditions specific to a particular region or state's needs and/or requirements. Regional conditions are an important mechanism to help ensure that the adverse environmental effects of activities authorized by the NWPs are minimal, individually and cumulatively. Division engineers may also suspend or revoke specific NWPs in certain geographic areas (e.g., states or watersheds) or high-value aquatic systems where the adverse environmental effects caused by activities authorized by those NWPs may be more than minimal. An enclosure for this public notice (Enclosure A) lists the proposed regional conditions currently under consideration by The Little Rock District (SWL), which will act as the Lead District for the Corps of Engineers Districts (SWL, Memphis (MVM) and Vicksburg (MVK)) in the State of Arkansas. SWL is seeking comments on the proposed regional conditions and seeking comments on the need for additional regional conditions to help

ensure that the adverse environmental effects of activities authorized by the proposed NWP are no more than minimal, individually and cumulatively. Unless otherwise noted, all proposed regional conditions listed on this enclosure are applicable for activities in the State of Arkansas. The Little Rock District will receive written comments on the proposed work, as outlined above, until **August 4, 2025**. Comments should be submitted electronically via the Regulatory Request System (RRS) at <https://rrs.usace.army.mil/rrs> or to Michael Gala at Michael.R.Gala@usace.army.mil. Alternatively, you may submit comments in writing to Little Rock District Corps of Engineers, Regulatory Division, PO Box 867, Little Rock, Arkansas 72203-0867. Please refer to the permit application number in your comments. Similar public notices proposing regional conditions in other regions or states are being published concurrently by other division or district offices. After the final NWP is issued, the final regional conditions will be issued after they are approved by the Division Commander.

401 Water Quality Certification and Coastal Zone Management Act:

States, tribes, and other certifying authorities will make their Clean Water Act Section 401 water quality certification (WQC) decisions after reviewing the proposed NWP. States will make their Coastal Zone Management Act (CZMA) consistency determination decisions after reviewing the proposed NWP.

Draft Decision Documents:

Draft decision documents for each of the proposed NWP, which include environmental documentation prepared for the purposes of the National Environmental Policy Act, have been written by Corps Headquarters. The decision documents will address compliance of the NWP with the requirements for issuance under the Corps' general permit authority. These draft decision documents, as well as the proposed NWP, are available for viewing at www.regulations.gov, docket number COE-2025-0002. Final decision documents will be prepared for the NWP that are issued.

Enclosed is a copy of the proposed NWP and conditions. They are also available through Corps Home Page at <https://www.usace.army.mil/Missions/Civil-Works/Regulatory-Program-and-Permits/Nationwide-Permits/>, at www.regulations.gov in docket number COE-2025-0002, or at the following Federal Register address: <https://www.federalregister.gov/documents/2025/06/18/2025-11190/proposal-to-reissue-and-modify-nationwide-permits>.

Index of Proposed Nationwide Permits, General Conditions, and Definitions

Nationwide Permits

1. Aids to Navigation
2. Structures in Artificial Canals
3. Maintenance
4. Fish and Wildlife Harvesting, Enhancement, and Attraction Devices and Activities
5. Scientific Measurement Devices
6. Survey Activities

7. Outfall Structures and Associated Intake Structures
8. Oil and Gas Structures on the Outer Continental Shelf
9. Structures in Fleeting and Anchorage Areas
10. Mooring Buoys
11. Temporary Recreational Structures
12. Oil or Natural Gas Pipeline Activities
13. Bank Stabilization
14. Linear Transportation Projects
15. U.S. Coast Guard Approved Bridges
16. Return Water from Upland Contained Disposal Areas
17. Hydropower Projects
18. Minor Discharges
19. Minor Dredging
20. Response Operations for Oil or Hazardous Substances
21. Surface Coal Mining Activities
22. Removal of Vessels
23. Approved Categorical Exclusions
24. Indian Tribe or State Administered Section 404 Programs
25. Structural Discharges
26. [Reserved]
27. Aquatic Ecosystem Restoration, Establishment, and Enhancement Activities
28. Modifications of Existing Marinas
29. Residential Developments
30. Moist Soil Management for Wildlife
31. Maintenance of Existing Flood Control Facilities
32. Completed Enforcement Actions
33. Temporary Construction, Access, and Dewatering
34. Cranberry Production Activities
35. Maintenance Dredging of Existing Basins
36. Boat Ramps
37. Emergency Watershed Protection and Rehabilitation
38. Cleanup of Hazardous and Toxic Waste
39. Commercial and Institutional Developments
40. Agricultural Activities
41. Reshaping Existing Drainage Ditches
42. Recreational Facilities
43. Stormwater Management Facilities
44. Mining Activities
45. Repair of Uplands Damaged by Discrete Events
46. Discharges in Ditches
47. [Reserved]
48. Commercial Shellfish Mariculture Activities
49. Coal Remining Activities
50. Underground Coal Mining Activities
51. Land-Based Renewable Energy Generation Facilities
52. Water-Based Renewable Energy Generation Pilot Projects

- 53. Removal of Low-Head Dams
- 54. Living Shorelines
- 55. Seaweed Mariculture Activities
- 56. [Reserved]
- 57. Electric Utility Line and Telecommunications Activities
- 58. Utility Line Activities for Water and Other Substances
- 59. Water Reclamation and Reuse Facilities
- A. Activities to Improve Passage of Fish and Other Aquatic Organisms

Nationwide Permit General Conditions

- 1. Navigation
- 2. Aquatic Life Movements
- 3. Spawning Areas
- 4. Migratory Bird Breeding Areas
- 5. Shellfish Beds
- 6. Suitable Material
- 7. Water Supply Intakes
- 8. Adverse Effects from Impoundments
- 9. Management of Water Flows
- 10. Fills Within 100-Year Floodplains
- 11. Equipment
- 12. Soil Erosion and Sediment Controls
- 13. Removal of Temporary Fills
- 14. Proper Maintenance
- 15. Single and Complete Project
- 16. Wild and Scenic Rivers
- 17. Tribal Rights
- 18. Endangered Species
- 19. Migratory Birds and Bald and Golden Eagles
- 20. Historic Properties
- 21. Discovery of Previously Unknown Remains and Artifacts
- 22. Designated Critical Resource Waters
- 23. Mitigation
- 24. Safety of Impoundment Structures
- 25. Water Quality
- 26. Coastal Zone Management
- 27. Regional and Case-by-Case Conditions
- 28. Use of Multiple Nationwide Permits
- 29. Transfer of Nationwide Permit Verifications
- 30. Compliance Certification
- 31. Activities Affecting Structures or Works Built by the United States
- 32. Pre-Construction Notification

District Engineer's Decision
