We want your input during this update process. Please use this form to provide your comments and suggestions on items to update in the Table Rock Lake Shoreline Management Plan (SMP). Please be as specific as possible.

It's great to see action being taken to move forward the "DRAFT 2017 SMP". It would be beneficial for the current process, if the submittals on the same plan back in 2017 would be made available to the newly created committee (TRLOG). My comments now relate to the "DOCK AND FLOATING FACILITIES IN ALTERNATIVES" Chart. 1. PWC Lifts should be reviewed by the Corps for possible safety issues (via the dock plans and/or 5-year inspection for permit renewal). 2. Solar and other alternate power sources to be optional for existing docks. No requirement to change such docks. 3. Dock Plans should required for all Private Docks which have had changes/modifications (Dock, PWC Lifts, etc.) after the original plans were approved by the Corps.

PRIVATE ACT STATEMENT INSTRUCTIONS

AUTHORITY: 10 U.S.C. 2606, and the laws and regulations referenced therein.

PRINCIPAL PURPOSE(S): To provide a means for the maximum practicable public participation in Shoreline Management Plan formulation, preparation and subsequent revisions, through the use of public meetings, group workshops, open houses or other public involvement.

ROUTINE USE(S): Information you provide will be available for public review or may be disclosed to members of the Department of Defense or other Government agencies who have a need for the information in performance of their official duties, and where use of such information is compatible with the purpose for which the information is collected.

DISCLOSURE: Voluntary, however, failure to furnish the requested information may prevent the agency from being able to direct meeting notices or provide additional information to commenters.
To: Dana Coburn, Project Manager Table Rock Lake SMP update  
From: Steve Featherston  
Date: December 16, 2019  
Subject: Status of the evaluation of my request to be zoned for Dock

I see that the Table Rock Lake Shoreline Management Plan (SMP) update is back in motion with the establishment of the Oversight Committee (OC) and it’s guidelines and duties set out. It is about time, huh?
I am writing to revisit my request to move some of the zoning that exists across my cove over to my side so I can put in a community dock. As you are well aware from our numerous conversations and correspondence, the LDA zone across the cove has over 500 feet of “red line” zone for one 4-slip private dock and the land owner who owns the twenty acres that the LDA zone runs in front of has no interest in granting easement for anyone to put in additional docks in that area.
You told me the last time we spoke in person that my request was still being evaluated and I see on the preferred plan of the Shoreline Zoning Management Alternatives (a copy of which is enclosed) that a request is still being evaluated but was put on hold until the above-mentioned OC was put into place.
Whether it is moving some of that LDA (Zone #336) across the cove or establishing a new LDA, I am once again asking for a favorable outcome to what has been a 14 year process.
I hope to see you at the January 23 meeting and if I need to bring the request with the particulars (monument #s proof of ownership for easement requirements, etc.) that the Corps sent back to me after holding it and accepting amendments to it for 11 years before telling me it was untimely, I would be glad to bring it.
Thank you for your attention to this letter and, hopefully a prompt response.
May you and your family have a safe and merry Christmas and I look forward to hearing from you soon.

Sincerely,

Steve Featherston

We want your input during this update process. Please use this form to provide your comments and suggestions on items to update in the Table Rock Lake Shoreline Management Plan (SMP). Please be as specific as possible.

We have downloaded the Table Rock Master Plan Shoreline Management Plan documents. It is the consensus of residents and slip owners to have Alternative 2 to be put in place for the Shoreline Management Plan.

We oppose any new developments and land allocation as described in Alternative 2. It is the desire of residents and slip owners to prevent Table Rock from becoming like Lake of the Ozarks with increased water traffic and pollution.

We feel Alternative 2 is the best process to follow to keep the lake pristine and operable and manageable. All other alternatives are unacceptable.

Thank you for your consideration of our voice in this matter.
Respectfully yours,
Forest Park Community Dock 2
Kimberling City, MO
