To: Dana Coburn, Project Manager Table Rock Lake SMP update

From: Steve Featherston

Date: December 16, 2019

Subject: Status of the evaluation of my request to be zoned for Dock

I see that the Table Rock Lake Shoreline Management Plan (SMP) update is back in motion with the establishment of the Oversight Committee (OC) and it's guidelines and duties set out. It is about time, huh?

I am writing to revisit my request to move some of the zoning that exists across my cove over to my side so I can put in a community dock. As you are well aware from our numerous conversations and correspondence, the LDA zone across the cove has over 500 feet of "red line" zone for one 4-stip private dock and the land owner who owns the twenty acres that the LDA zone runs in front of has no interest in granting easement for anyone to put in additional docks in that area.

You told me the last time we spoke in person that my request was still being evaluated and I see on the preferred plan of the Shoreline Zoning Management Alternatives (a copy of which is enclosed) that a request is still being evaluated but was put on hold until the above-mentioned OC was put into place.

Whether it is moving some of that LDA (Zone #336) across the cove or establishing a new LDA, I am once again asking for a favorable outcome to what has been a 14 year process.

I hope to see you at the January 23 meeting and if I need to bring the request with the particulars (monument #s proof of ownership for easement requirements, etc.) that the Corps sent back to me after holding it and accepting amendments to it for 11 years before telling me it was untimely, I would be glad to bring it.

Thank you for your attention to this letter and, hopefully a prompt response.

May you and your family have a safe and merry Christmas and I look forward to hearing from you soon.

Sincerely,

Steve Featherston 28517 Private Road 1190

Eagle Rock, Mo. 65641
